

# PRADHEEP P

JAVA FullStack Developer

 Tirupattur  [9360723119](tel:9360723119)  [pradheepraj29@gmail.com](mailto:pradheepraj29@gmail.com)  [LinkedIn Profile](#)  [GitHub Profile](#)  10 Mar 1998  [Portfolio](#)

## Profile

Entry-level Full Stack Java Developer with a solid foundation in both frontend and backend technologies. Demonstrates a sharp attention to detail and a dedication to crafting seamless user experiences. Driven to continuously learn and grow within the field of software development.

## Education

|                             |                                |
|-----------------------------|--------------------------------|
| PSG College of Technology   | 2021-2023                      |
|                             | Master of Computer Application |
| Amrita College of Education | 2019-2021                      |
|                             | B.Ed.,                         |
| Sacred Heart College        | 2015-2018                      |
|                             | B.Sc., Mathematics             |

## Projects

### Swiggy Clone Web Application (Ongoing)

- Developing a full-stack food delivery web application inspired by Swiggy.
- Building the frontend using **React.js** for a dynamic and responsive user interface.
- Implementing **Spring Boot** for backend services and **REST APIs** for seamless data exchange.
- Integrating **user authentication, restaurant listing, order management, and payment gateway**.
- Using **MySQL** for database management and Redux for state management.

## Skills

|                                                                                                    |                                                                                                |                                                                            |
